SPEED SKATING CLUB

Competition Format

The Central Coast Classics are an 'all-in' type of competition. The races are seeded according to ability NOT division and gender.

The first event of the first session of racing is a 6-lap pursuit. From this, skaters are ranked according to time, and then seeding for the first round of racing is worked out. Skaters then participate in 1500m Heats and Finals, 500m then 1000m Heats, Semi-finals and Finals.

Medals will be awarded for the top three place getters for each event (including 6 lap pursuit) as well as for overall position at the completion of the competition. Despite the Central Coast Classic being an ability-based event, highest place getters according to AIR Inc age and gender divisions will be recognised.
